

The City of Albert Lea, MN, would like to schedule road striping of its 29 miles of Municipal State Aid streets for the 2026 season. If interested, please send your quotation on the price per gallon of both yellow and white paint, for furnishing the materials and painting the Albert Lea streets, plus an estimate of the gallons of paint necessary. We would like the painting completed by June 19, 2026, in time for the City 4th of July celebration. One of our Street Department employees will be available to identify the streets the day the painting is done.

**1. Yellow ReflectORIZED Pavement Marking Paint (Centerline and No Passing Zones)**

Use Minnesota Department of Transportation Specifications for High Solids Water Based Traffic Paint. Apply 8 lbs. per gallon of MN/DOT specification glass beads on top of the paint.

**2. White ReflectORIZED Pavement Marking Paint (Edge Striping, One-Way Centerline, and Bike Lanes)**

Use Minnesota Department of Transportation Specifications for High Solids Water Based Traffic Paint. Apply 8 lbs. per gallon of MN/DOT specification glass beads on top of the paint.

**SUMMARY OF STREET PAINT STRIPING – YEAR 2026**

Yellow Centerline Skip Striping	18.52 miles
Yellow Centerline Solid Double Line Striping	3.55 miles
White Centerline Skip Striping-One Way Street	2.82 miles
White Solid Edge Striping	10.70 miles
Yellow Solid Edge Striping	3.07 miles
Yellow Solid w/ Yellow Skip Striping	1.71 miles
White Solid Bike Lane Striping	4.91 miles

The 10.70 miles of White Solid Edge Striping are estimated white distances equivalent to 5.35 miles of centerline road mileage, with white stripe on both sides of the roadway.

Quotations will be received at the office of the City Engineer/Director of Public Works, 221 E. Clark Street, Albert Lea, MN, 5600 or emailed to me, on or before Friday, April 10, 2026. If you have questions, please call my office at 507-377-4325.
